Pinela Series

A considered choice for outdoor living

Introducing the Pinela Series

For those who live with intention outdoors

For those who move through life with purpose. With time. In the right surroundings. For those who see the outdoors as an essential part of living - not an afterthought. A place to escape the pace of everyday life.

Where things slow down.

Where light and shadow set the rhythm.

Where comfort and beauty go hand in hand.

Where the magic of being outside becomes something you can touch.

For those who live with intention outdoors.

For those who live with intention outdoors.

The Pinela Series

Always in balance

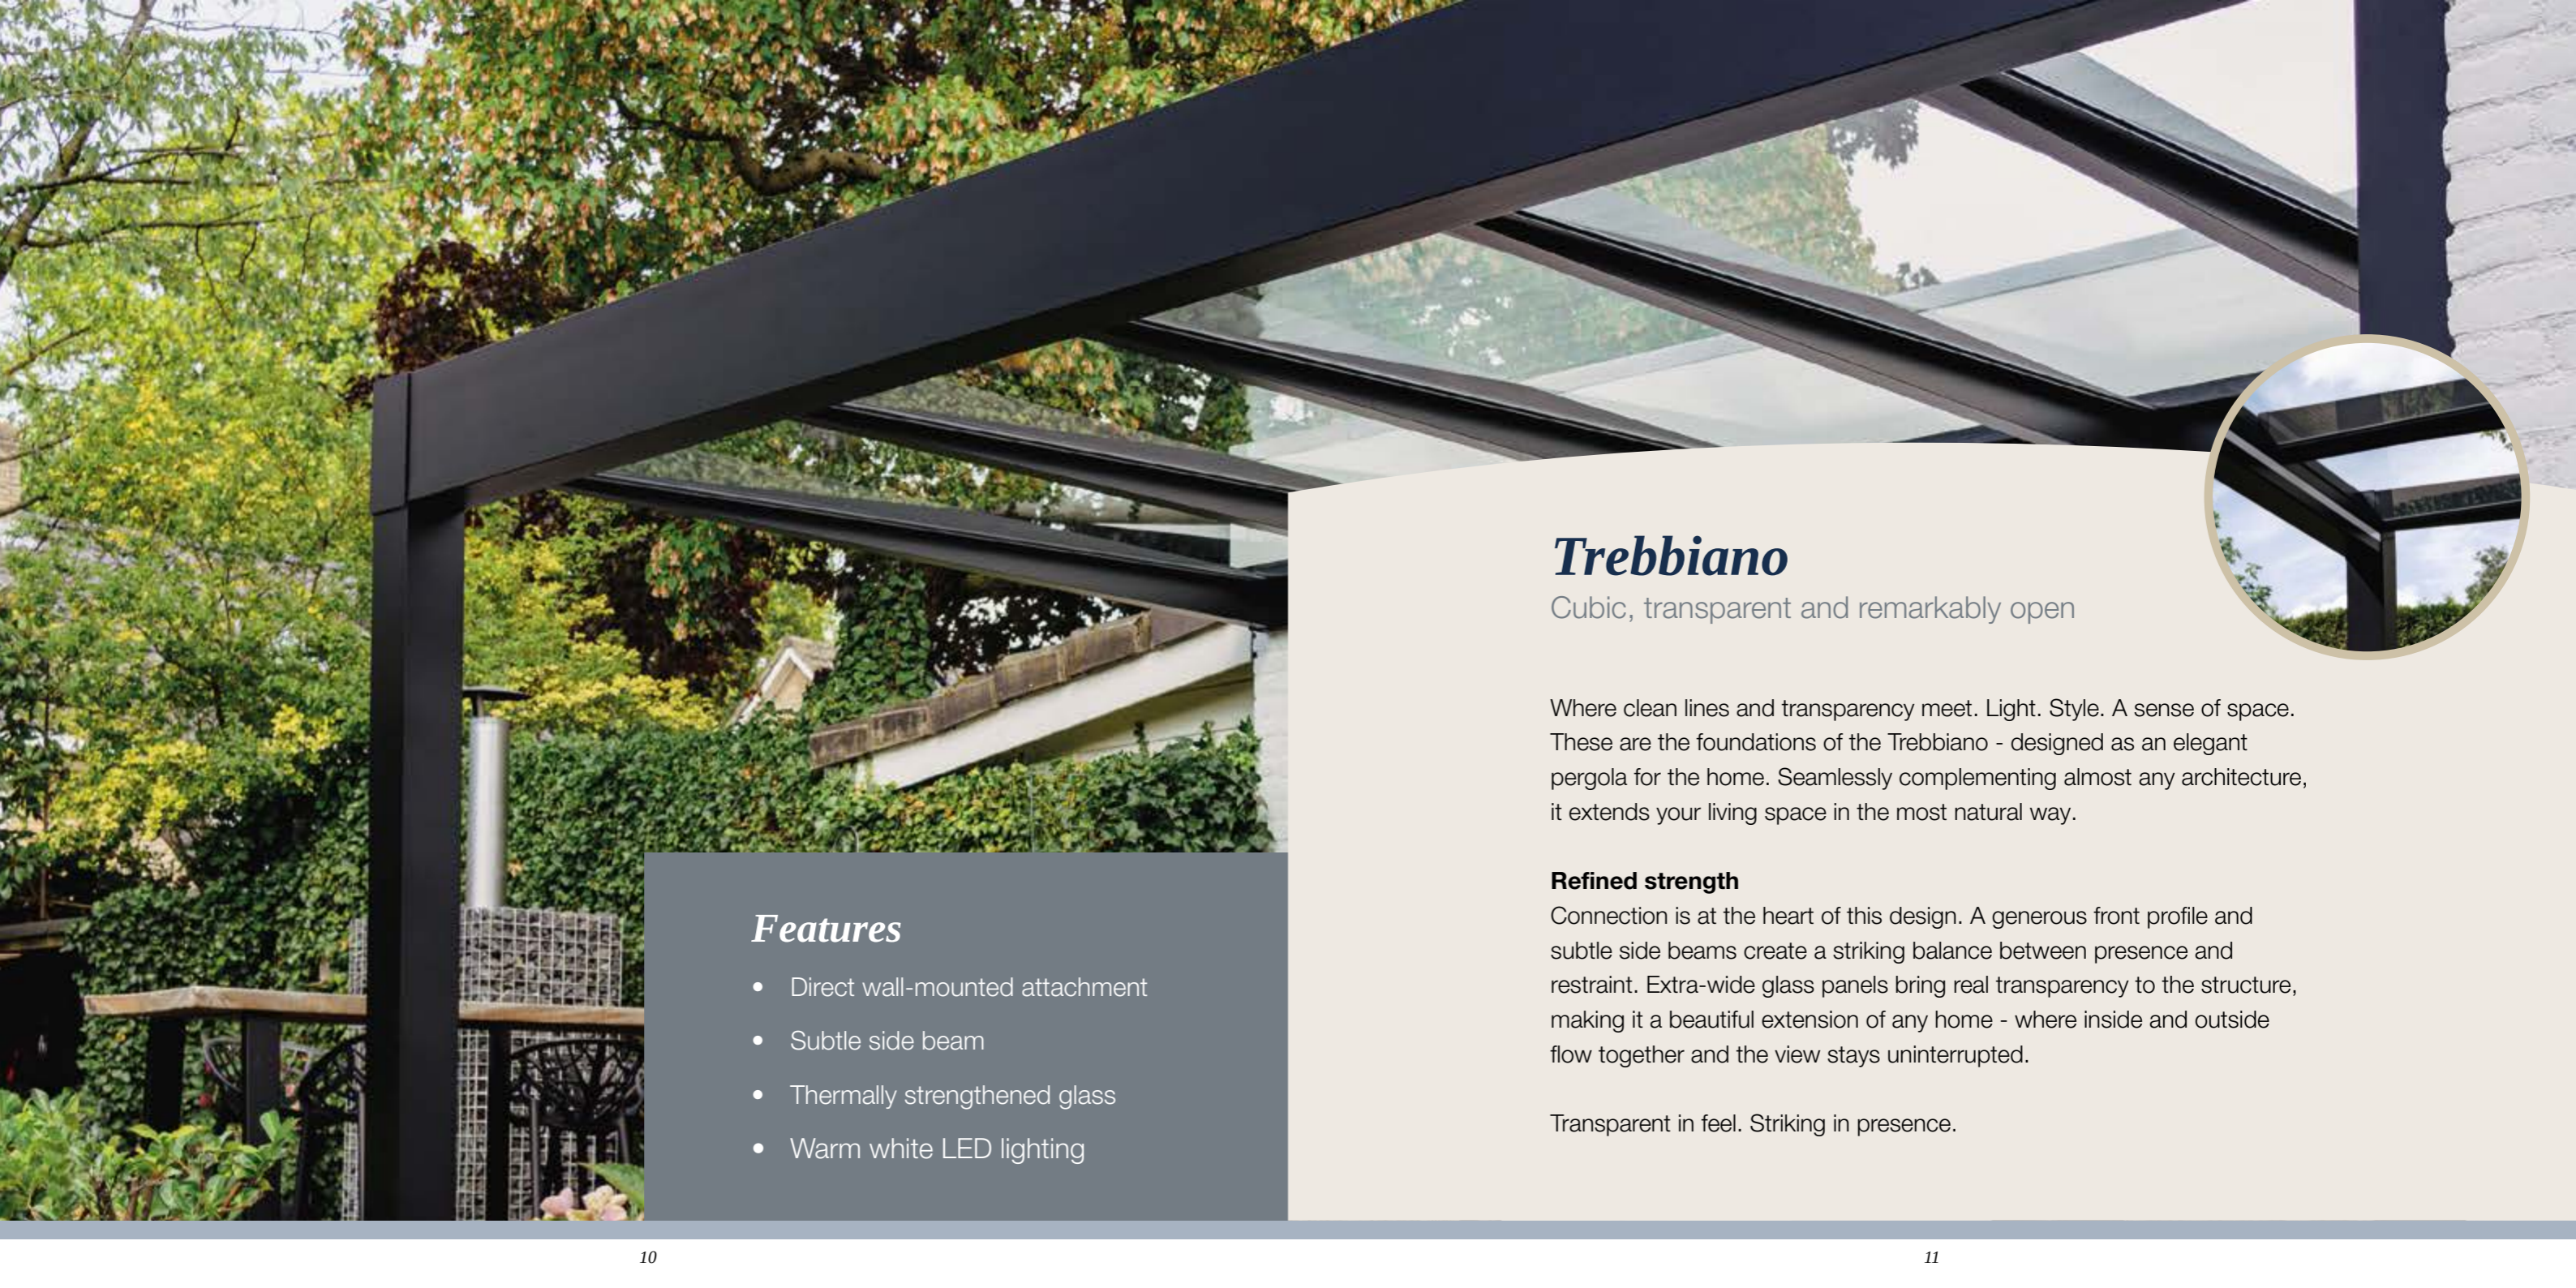

Every Pinela begins with the same thought: an outdoor space should just feel right. In proportion, in function, and in feeling. Not only on beautiful days, but especially when the weather turns. When the sun sits lower and the evenings stretch longer. That's the driving force behind the craftsmanship we bring to outdoor living at Deponti. We start with considered choices - materials that last, designs that inspire, and solutions that can meet any brief.

The Pinela Series brings together a range of pergola models. Each with its own character, aesthetic and story. What they share is the same foundation: a clean, cubic design, a sense of calm, precise control, and a finish that goes all the way to the details - including smart rainwater drainage. From open and airy to sheltered, glazed and comfortable: always in harmony with its surroundings. From louvre blades to glass roofs.

*Includes
integrated
rainwater
drainage*

***Designed to endure.
Built to be used.***

Features

- Direct wall-mounted attachment
- Subtle side beam
- Thermally strengthened glass
- Warm white LED lighting

Trebbiano

Cubic, transparent and remarkably open

Where clean lines and transparency meet. Light. Style. A sense of space. These are the foundations of the Trebbiano - designed as an elegant pergola for the home. Seamlessly complementing almost any architecture, it extends your living space in the most natural way.

Refined strength

Connection is at the heart of this design. A generous front profile and subtle side beams create a striking balance between presence and restraint. Extra-wide glass panels bring real transparency to the structure, making it a beautiful extension of any home - where inside and outside flow together and the view stays uninterrupted.

Transparent in feel. Striking in presence.

Pinela Glass

Let there be glass

Where transparency is the starting point for how outside feels. The Pinela Glass brings calm and space within reach. Light moves freely. The boundary between indoors and outdoors softens.

Exceptional clarity

Extra-wide glass panels deliver an uninterrupted, panoramic view and an openness that truly breathes. By day, enjoy clear, sweeping sightlines. As evening falls, the atmosphere shifts gently beneath the integrated LED lighting, which casts a warm glow around the gutter. The outdoor living space stays inviting long after the sun goes down.

For those who can never get enough of the view.

Features

- Freestanding and wall-mounted options available
- Extra-wide glass panels
- Seamless flow between indoors and outdoors
- Warm white LED lighting

Screens

Calm, shelter and control

With Screens as part of the Pinela Series, a new dimension of comfort takes shape. They soften the light, ease the wind and create privacy - without losing touch with the outside. Perfectly balanced with the architecture of the outdoor space.

**For those who leave nothing to chance.
For those who notice every detail.**

When the sun is high, the Screens filter daylight to a gentle glow - no harsh contrast, just a soft transition between inside and out. As evening comes or the breeze picks up, they quietly close the space. Moving silently, with intuitive control.

- Features**
- Elegant, understated design
 - Rotating louvre blades
 - Warm white LED lighting

Pinela Delight

Pure elegance in every moment

Meet the Pinela Delight - and create a space where comfort and refinement come together. An elegant design, defined by a clean cubic frame. Subtly crafted, so this pergola sits effortlessly alongside almost any architecture. Light and refined in feel, yet thoughtfully designed to make every moment one of pure elegance.

A beautiful interplay of light, air and shade

The Pinela Delight features rotating louvre blades that create a captivating play of light, airflow and shade on a warm spring or summer day. When closed, the Pinela Delight offers complete protection so you can enjoy the outdoors in comfort - all at the touch of a button.

Pinela Delight. Subtle design. Outstanding comfort.

Fiano Louvre

The power of adjustable light

An outdoor space that feels calm and responds to every moment. With the Fiano Louvre, a natural interplay of light, shadow and privacy comes to life. The rotating blades move smoothly and always create the right atmosphere. Open when you want it. Sheltered when you need it.

Clean design with an eye for detail

The Fiano Louvre features rotating blades within a frame where all the mechanics are fully concealed. With no visible fixings, the result is clean, quiet and composed. The frame sits on a sliding rail system, allowing smooth horizontal movement. With a choice of frame and blade colours, the Fiano Louvre fits effortlessly into any style and any outdoor space.

Pinela Tilt

Powerfully designed for an exceptional outdoor life

Discover the Pinela Tilt - a pergola defined by a bold aesthetic and strong character. Clean lines and a cubic design combine to offer maximum freedom in use. Perfect for those who see outdoor living as anything but ordinary.

Control over airflow and light

The Pinela Tilt features rotating louvre blades that are simple to operate. With one touch, you take control of airflow and how much light comes in. When closed, this pergola delivers full protection and comfort. The result is a truly exceptional outdoor space.

Designed for strength. Built for comfort.

Features

- Bold, commanding aesthetic
- Tilting louvre blades for airflow and light control
- Warm white LED lighting and quiet operation
- Large span configurations available

Deponti Fiano *Glass sliding wall*

turn your canopy into a garden room

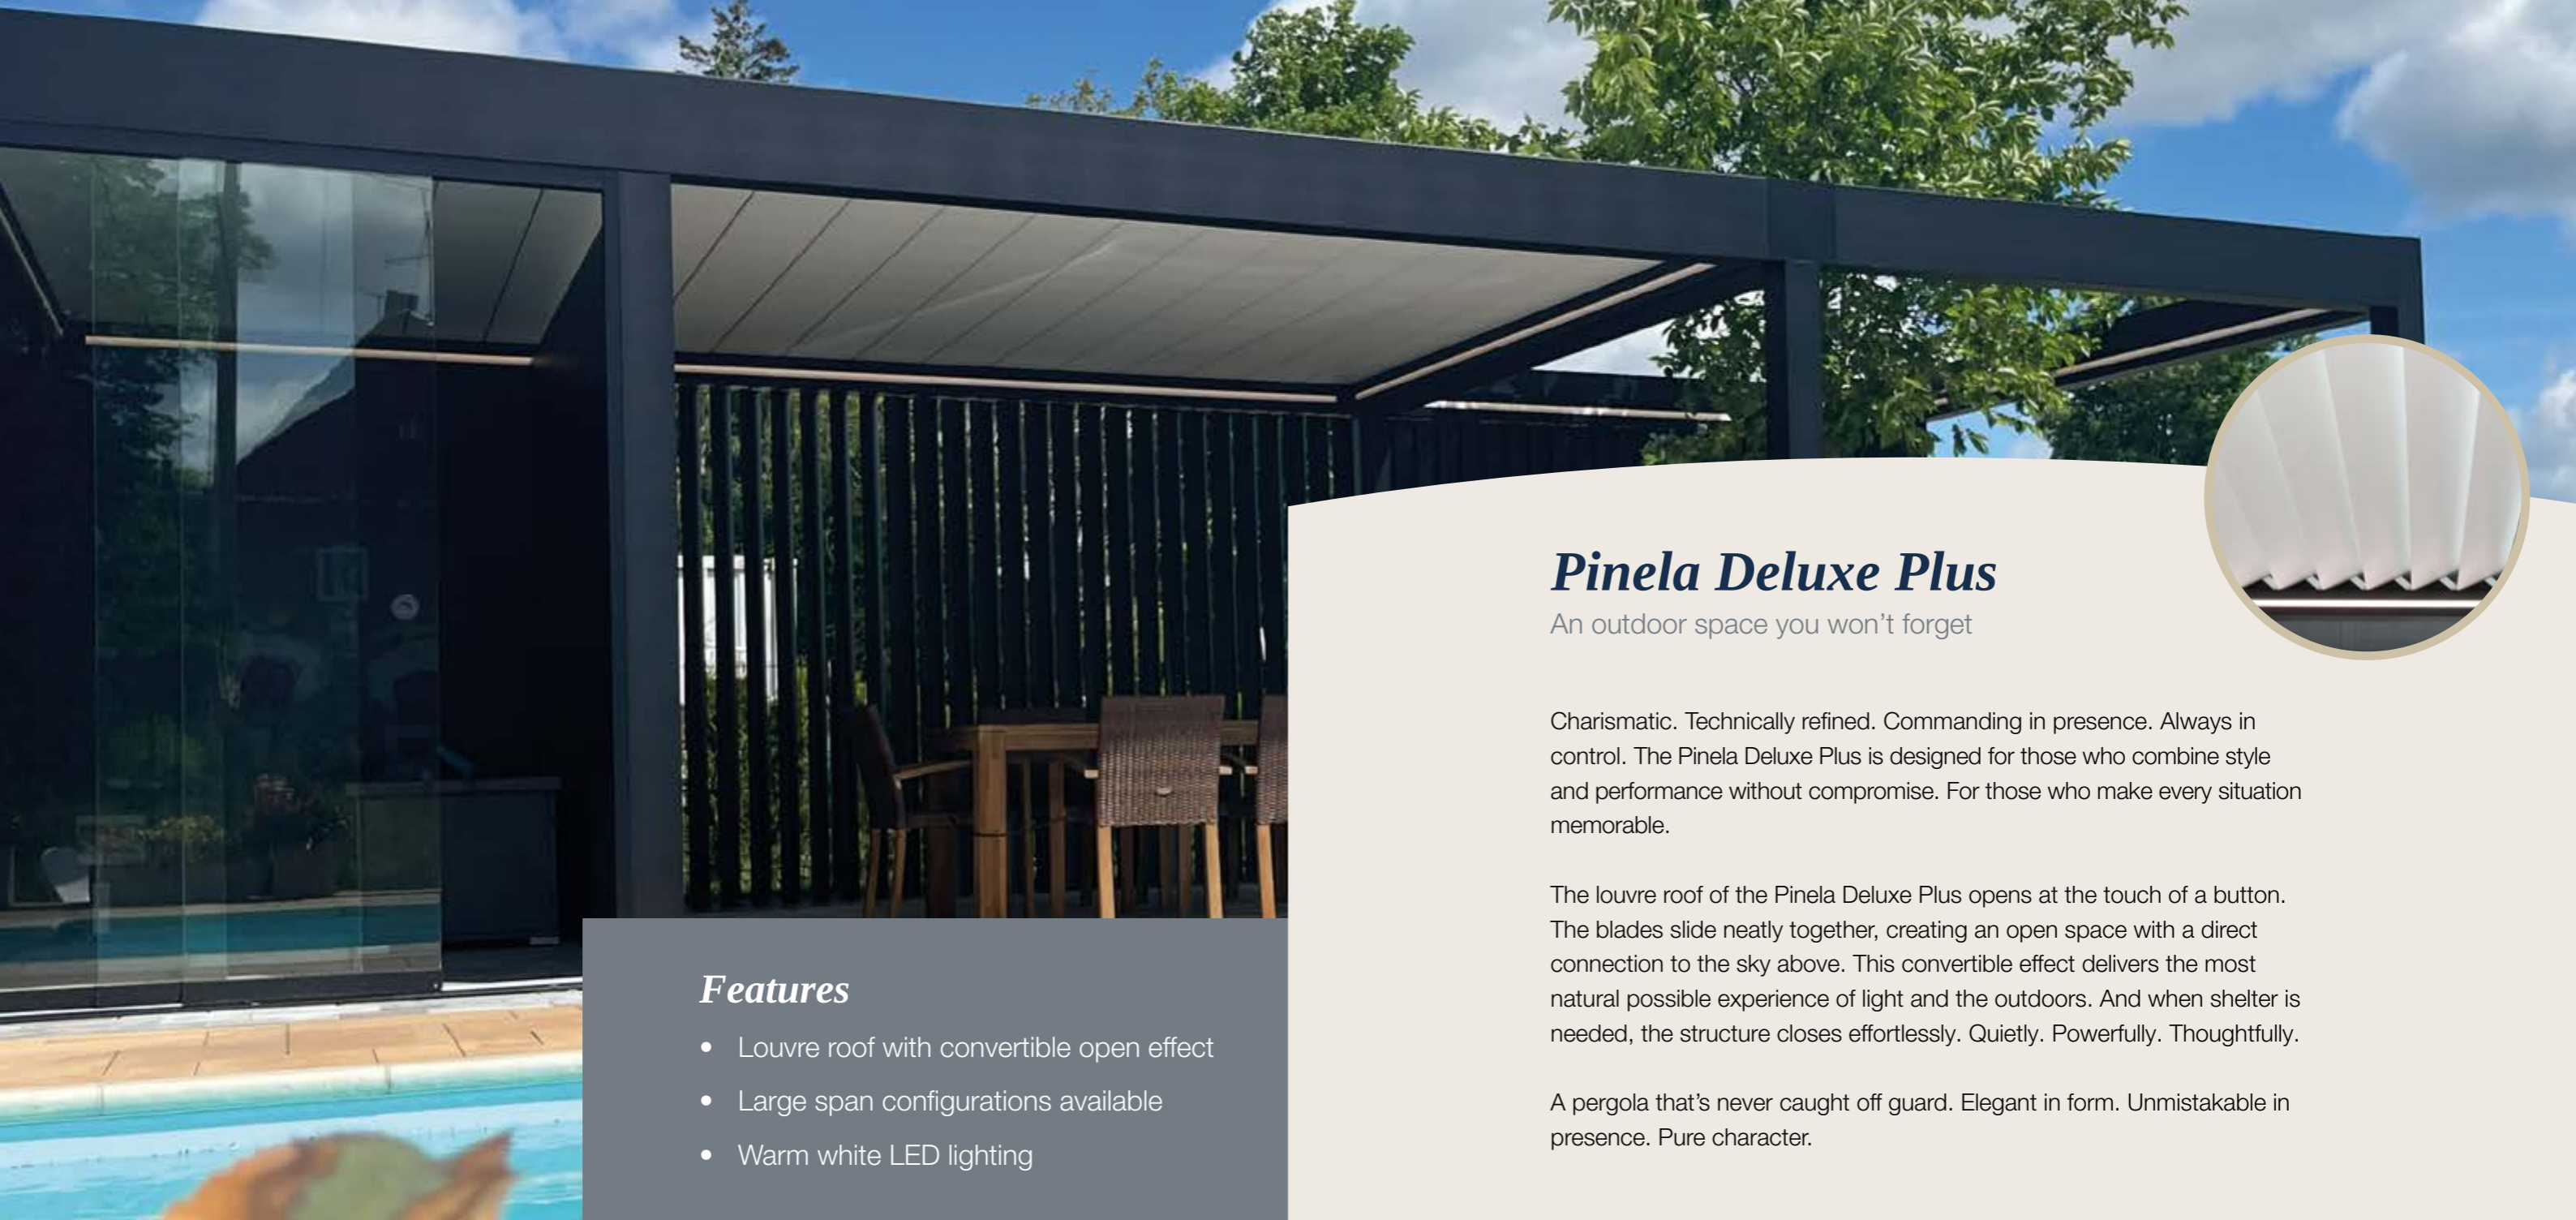

With Deponti Fiano glass sliding walls, a canopy becomes a fully realised garden room. An open outdoor space gains shelter, comfort and character. Wind and rain stay out, while the view of the garden stays in.

A standout addition

With Deponti Fiano glass sliding walls, a light and inviting space takes shape - where indoors and outdoors flow seamlessly into one another. The canopy grows into a garden room that comes into its own in every season.

Combine with
the Fiano Louvre
for extra comfort

Features

- Louvre roof with convertible open effect
- Large span configurations available
- Warm white LED lighting

Pinela Deluxe Plus

An outdoor space you won't forget

Charismatic. Technically refined. Commanding in presence. Always in control. The Pinela Deluxe Plus is designed for those who combine style and performance without compromise. For those who make every situation memorable.

The louvre roof of the Pinela Deluxe Plus opens at the touch of a button. The blades slide neatly together, creating an open space with a direct connection to the sky above. This convertible effect delivers the most natural possible experience of light and the outdoors. And when shelter is needed, the structure closes effortlessly. Quietly. Powerfully. Thoughtfully.

A pergola that's never caught off guard. Elegant in form. Unmistakable in presence. Pure character.

A dark-colored car is parked on a gravel driveway. The car is partially obscured by a modern, black metal structure that appears to be a carport or a decorative frame. The structure has thick, rectangular beams. The gravel is light-colored and covers the ground. In the background, there are several small, dark green, conical evergreen trees. The lighting is bright, suggesting a sunny day.

A stylish homecoming, every single day.
